

Steven Milgrim, LPC, LSATP

I have a Bachelor's Degree in Psychology from Brandeis University and a Master's Degree in Counseling from Marymount University. I have been working in the mental health field since 1987 and have been licensed as a Professional Counselor and Substance Abuse Treatment Practitioner in Virginia since 2000. I enjoy working with adolescents and adults as individuals, couples, families and groups. Having worked in group homes, shelters, community living centers, outpatient clinics, partial hospitalization programs, residential treatment facilities, community based care and private practice, I am able to utilize a variety of approaches to insure that each client is treated as an individual.
